A COTTON PICKER INVENTED

A Successful Machine is Inven-
ted—An Interesting Legal
Case.

(Special to The Times-Dispatch.)
RALEIGH, N. C., October 2.—The sale of seats for the Glansman, the sensation-
al drama by T. W. Dixon, Jr., to be
presented here Tuesday afternoon and
night began this morning at 9 o'clock,
and within half an hour all had been
sold. No such sales have ever been
known here for a theatrical performance
before.

The answer of Claude M. Bernard, ex-
United States attorney, to the complaint
of H. C. Howell in the suit brought by
Howell for the ruin of his daughter, Ber-
tha Howell, is filed and consists of a gen-
eral denial of all the charges. The suit is
for \$20,000, and is a phase of the sensa-
tional affair that culminated in the shoot-
ing of John Dockery, Deputy United
States Marshal by Policeman I. W.
Rogers. The Rogers girl and the Howell
girl were together with Bernard and
Dockery in the escapade out of which
the trouble grew.

A COTTON PICKER.

The new cotton picking machine pro-
moted by Colonel Jerome Hill and just
successfully tested, has been booked for
exhibition at the State Fair October 10th
to 21st. Its utility is to be demonstrated
in a cotton field adjacent to the fair-
grounds.

The work of extending the Raleigh
street car line out by the Union Depot
to Glenwood, the new suburban residence
section southwest of the city, is now
well advanced. So much so that the line
will probably be in operation by the
State Fair. Certainly the connection will
be made with the Union Station, and
all trains will be met by the street car.
Associate Justice Hooker of the Supreme
Court today ordered the habeas corpus case
of Triv W. Mangum, of Granville county,
this morning and ordered the release of
the prisoner. It appeared that Mangum,
along with other witnesses, was sum-
moned before Magistrate Thomas J. Thy-
lor on subpoenas merely alleging certain
criminal offenses in the trial of which
they were wanted as witnesses without
specifying that the crimes to be tried
were selling liquor and gaming, the pro-
ceeding being under sections 1133 and 1134
of the Code.

DECLINED TO ANSWER.

When Mangum was put on the stand he
declined to answer questions. He pro-
ceeded to state that the subpoenas should
have contained specific charges against
certain persons. For refusal to
answer questions, the justice adjudged
Mangum in contempt of court and fined
him \$100, committing him to the custody
of the sheriff until the fine and costs
were paid. At the hearing this morning,
Judge Hoke held that inasmuch as the
magistrate purported to be acting under
sections 1133 and 1134 of the Code, the
process was valid because it was
issued under the conditions of that
section. He intimated, however, that
if the process had alleged a violation of
statutes relating to gaming and the sale
of intoxicants the witness would have
been compelled to answer under the spe-
cial statutes regulating procedure in the
prosecution for these offenses.

Briefs in behalf of the State were filed
by J. S. Royster and H. M. Shaw, of
Oxford, and Major A. W. Graham, of
Oxford, appeared in behalf of Mangum.

VOTE ON PROHIBITION. Governor Glenn Thinks Time Has Come for This.

(Special to The Times-Dispatch.)
RALEIGH, N. C., October 2.—Governor
Glenn, in extending the welcome on be-
half of the State to the twenty-third an-
nual convention of the North Carolina
Women's Christian Temperance Union,
declared that in his opinion the time
has come when the question of probi-
tion should be submitted to the people
throughout the State. He is convinced
from observation on his trip through
New England, he declared, that probi-
tion does prohibit and he hopes to see
the (accursed) stuff wiped out of the
State. He declared he could not ap-
pear that as for himself he burns the
bridge behind him and stands squarely
with the general temperance forces to
brave the hideous monster of intemper-
ance out of the State.

There is quite a large attendance upon
the W. C. T. U. Convention.

RHEUMATISM COMMON IN SUMMER

The time to get rid of Rheumatism is
in Summer while the blood is endeavor-
ing to purge itself of all poisons and im-
purities, and the skin is active, with all
the pores and glands open and able, in
this way, to assist in the elimination.

Columbus, O., 1955 Mt. Vernon, Ave.
S. S. S. years ago and a severe attack of
Rheumatism, Rheumatism, and the doc-
tors I had did me no good. They changed
medicines every week and nothing was
done. I had seemed to be well. Finally
I left off my medicine and began the
use of S. S. S. My knee and elbow joints
were swollen terribly, and at one time
my hands were so swollen and painful
that I could not close them when opened.
I was getting discouraged, you may be
sure, when I began S. S. S., but as I saw
it was helping me I continued it, and to-
day I am as well as well, and have
never had a return of the disease.

R. H. CHAPMAN.

The inactivity of the Liver, Kidneys and
Bowels causes therefore matter to remain
in the system, which, coming in contact
with the different acids of the body,
forms uric acid to be absorbed by the
blood and distributed to the different
joints and muscles, producing the pains,
inflammation and other distressing sym-
ptoms of Rheumatism. The wandering
pains of the disease remind the sufferer
that the poison is still in the blood and
he should lose no time in getting it out.
S. S. S. neutralizes the acid and makes
the blood rich and pure. It tones up
every organ and cures the disease perma-
nently. S. S. S.
contains no
harmful min-
erals to dis-
agreeably af-
fect the sys-
tem, but
while curing the
disease builds
up every part of the body by its tonic
effect. Book on Rheumatism and any
medical advice desired without charge.

WANT SADDLE HORSE FOR THE PRESIDENT

Raleigh Raking the Country for
a Fine Animal for
Him.

(Special to The Times-Dispatch.)
WINSTON-SALEM, N. C., October 2.—
Snoak and McCree received a tele-
gram to-day from Raleigh requesting
them to furnish a saddle horse to be used
by President Roosevelt during his visit
to the State Fair. The firm has secured
a splendid animal, the one recently pur-
chased from them by Mrs. R. J. Rey-
nolds, of this city, for her own use.
The exercises in connection with the
laying of the corner-stone of the Child-
well Memorial Building at 4:30 this after-
noon, were attended by a large con-
course of people, and the beautiful and
impressive services were of a most in-
teresting character. In addition to the
Grand Lodge of Masons of North Car-
olina, representatives of the different de-
nominations of the city participated in
the ceremony.

The county commissioners to-day is-
sued an order instructing Sheriff Al-
bright to prohibit the sale of malt or
other liquors or any intoxicating drinks
in or about Piedmont Park during the
fair this week.

Olsen to Meet Leonhardt.

(Special to The Times-Dispatch.)
SPENCER, N. C., Oct. 2.—A contract
was signed here to-night with Chas. Ol-
sen, the winner of the noted wrestling
contests with Schoenberger and other
fighters, to meet Chas. Leonhardt, to meet
Chas. Leonhardt in a contest in Spencer
on October 20th.

Professor Leonhardt will spend ten days
here in training and expects to meet
Olsen in good trim. Olsen is training at
Asheville for the bout.

A DRUNKEN NEGRO SHOOTS BOTH HIS WIFE AND MOTHER

(Special to The Times-Dispatch.)
LYNCHBURG, VA., October 2.—The
indications are that the Interstate Fair
Association, which begins its first annual
exhibition to-morrow morning, will attract
the largest crowd here during the week.

Many persons confidently predict that
there will be at least 30,000 persons on
the grounds on Thursday, the big day of
the week. The grounds have just under-
gone rehabilitation and beautification at
the cost of \$15,000, and well known fair
connoisseurs them to be the prettiest
small grounds in the entire South.

All of the departments will be full.
There are 300 head of cattle here already,
while the horses, swine and poultry will
be equally as good. Hon. George E.
Murrell, who was one of the Virginia
commissioners at the Louisiana Purchase
Exposition, has charge of the fruit ex-
hibit, which is pronounced the best that
has ever been collected in the State.

The ladies' department is full, while
there will be an immense exhibit of all
character of farm machinery and im-
plements. The races are all well filled,
some of them having as many as nine
entries. About \$9,000 will be divided the
between purses and premiums, while the
management has expended \$2,500 for free
attractions.

The Lynchburg Home Guard will give
an exhibition drill on the grounds. On
Thursday and on each of the days the
Lynchburg City Band and the Roanoke
Machine Works Band will supply the
music, giving continuous concerts, which,
with the free attractions, will keep some-
thing doing from 10 A. M. until the last
ride is decided late in the afternoon.

The place will have a large number of
good clean attractions. Gambling, liquor,
games of chance and shows of a ques-
tionable character, have been barred
from the grounds by the management.
Excursion trains will be run on all of
the local roads on these days, covering
the territory between Charlottesville and
Danville, on the Southern; Durham,
Roanoke and Farmville, on the Norfolk
and Western; and between Clifton Forge
and Lexington and Scottsville on the
Chesapeake and Ohio.

INDIANS HAVE A STRONG LINE-UP

Carlisle to Buck Against Uni-
versity of Virginia
Here.

PALE-FACES ARE CONFIDENT

But the Red Men Have Some
Excellent Material for the
Contest.

All indications are that the attendance
upon the football game here on the 14th
between the Carlisle Indians and the
strong eleven from the University of
Virginia will be larger than that of
any previous year. The management of
the park has made extra preparation
for the accommodation of the vast
throng. Here is something about the
Indians that will be of interest to many:
The lightest kind of work on the prac-
tice field was given to the Carlisle Indian
football squad last week, inasmuch as
Head Coach George W. Woodruff has se-
cured a pretty fine line on the individual
capabilities of all the members of his
squad. The early afternoon has been
taken up by chalk talks which extended
from 2:30 to 3:00 o'clock. This has been
followed by kicking and catching the
ball, and brief line-up of the third and
fourth teams at quarter of four, after
which the first and second teams have
put in usually not more than a half
hour's scrimmage.

Kennedy and Inall, the two centres,
have been putting in a strenuous quar-
ter of hour following each day's practice
under the personal supervision of Coach
Woodruff, trying to reduce superfluous
flesh and learning line bucking tricks. It
is notable that both these men have
been improving in their handling the
ball. Hunt has been a good man and
only needs to have his aggressiveness
developed. Nephew, the valuable third
full back had his shoulder joint hurt in
the P. R. R. game last week and will
be out of the game for the season. Cap-
tain "Nick" Bowen's injuries have been
slight and he will be in excellent con-
dition for hard work during the coming
week, and Libby, who has been laid up
with a badly wounded arm, together
with Fritz Hendricks, the plucky little
half back, who has been in much the
same fix, will be playing their usual
games before midweek passes.

Coach is Satisfied.

Local enthusiasts believe that the
people of the large cities will this year
have an opportunity to see the most
perfect exhibition of the great college
game that have ever been witnessed in
the United States. Coach Woodruff's
criticisms were of a most in-
teresting character. He said that the
week have been few, and during the line
of commenting upon their lack of de-
sire to unnecessarily try their winded
opponents, who are sympathetically
eased up on as soon as the Indians
knew their speed. Coach Woodruff
thinks the Indians defensive work per-
fect as their opponents' work. He
first down during the whole game. On
several occasions during the game the
interference of the Indians for their
own runners was clean cut and probably
as perfect as could be.

There is no doubt that the Indians
are strong in the matter of having in-
dividual stars in abundance. No one who
has seen the practice work can doubt
but that there are seven or eight of
redskins who will amaze the college
fans during the season if opportunity is
presented. Dillon, Mt. Pleasant, Little Boy,
Fritz Hendricks, Archie Libby, Wilson
Charles, Antonio Lobo, and Wahnoo, are
all star players. La Roque is developing
as a good guard.

Elmer Kinney, the new assistant
coach, who has achieved such remarkable
results last year as a guard at Yale and
during the two preceding years as left
tackle at that institution, arrived here
on Tuesday and immediately took up
his work with the line men. Mr. Kinney
has expressed himself as being much
pleased with the quantity and quality
of the material now out on the field.
He believes that he can give the Vir-
ginians much information of value. He
made a very remarkable impression upon
the aborigines from his introduction.

Yale Men Selected.

The management of the Carlisle Indian
School's football team has announced
that the officials for the game between
Carlisle and the University of Vir-
ginia have been selected upon and that
the referee will be Corbin, of Yale, the
umpire, Mr. Sharpe, of Yale. The
date which has been allotted to Albright
College on September 20th has been can-
celled inasmuch as the Albright eleven
were not in condition to play the red-
skins so early and there has been a
game substituted for the same date
with Villa Nova which is thought to be
one of the heaviest and best trained
eleven among the college colleges. As to
the officials for the Harvard game at
Boston Dr. Paul Dashiell has alone been
decided upon for umpire. There will be
two additional games at least added to
the Indian schedule, which will be to
be played at Canton, Ohio, on November
22d, and the other will in all probability
be in the same State, either a week be-
fore or after that date.

POLICEMAN RESIGNS.

Officer Krause Goes to Work in
the City Gas Department.

Mr. James Krause, for nine years a
member of the Richmond police depart-
ment, has tendered his resignation, and
yesterday went to work with the city
gas department, his last work in the
police position was digging out for a gas
main on Tenth Street.

In leaving the police force Mr. Krause
causes a vacancy that will be hard to
fill by as capable a man. He was always
faithful, efficient and attentive, and his
superior and fellow-officers speak in the
very highest praise of his work as a pa-
trolman and also of his gentlemanly con-
duct at all times.

"No more Sunday or night work for
me," said the ex-officer yesterday, as
he shook hands with a Times-Dispatch
reporter. He was then dressed in clothes
befitting his style of work. "I am
getting a little less money for
this work, but I think it is better, the money isn't
everything in this life. If any one thinks
the job of doing police duty is a snap
send him to be, and I think I can ex-
plain him to the city gas works, and
I intend to keep it. No more prowling
around at night, freezing almost to
death, and getting cussed by every other
man in the city," said Mr. Krause, as
he caught hold of a gas pipe.

Peter Bonini in Court.

Peter Bonini, saloonist at No. 617 East
Marshall Street, was in Police Court yester-
day morning on a warrant issued at
the instance of the officers of the Pas-
senger and Power Company, charging
him with preventing the working of the
electric meter at his place of business.

The case was not called into, and the
witnesses were recognized for their ap-
pearance next Thursday morning. John
Questy became surety for the man.

COL. A. M. HIGGINS MAY BE PROMOTED

Virginia Military is Now En-
titled to a Brigadier
General.

An interesting story is going the rounds of military circles to the effect that there may be chosen at an early date a brigadier-general for the volunteer organization of the State, and the name of Col. A. M. Higgins, of Norfolk, is connected with the place.

There are now three regiments in Virginia, and this entitles the organization to a brigadier-general, who may be chosen if desired. There seems to be a difference of opinion as to whether such an officer should be chosen. It is understood not to be imperative that one should be chosen, but the matter is opened with the field officers of the three regiments. Colonel Higgins ranks Colonel Anderson in point of service in the newly organized militia of the State, and is looked upon as a strong man for the place. There might be other candidates as well, there being others who are well qualified.

Some of the friends of Colonel Higgins are of opinion that he is not a strong man for the place. He is not a strong man for the place. He is not a strong man for the place. He is not a strong man for the place.

would not aspire to the position of adjutant-general under certain conditions. Colonel Higgins is popular with the military of the State, and is a man of soldierly bearing and appearance. The Virginia Military is gradually getting on a much better basis, and nearly every inspector shows improvement; but one of the greatest handicaps to be contended with is that the Legislature appropriates so little money each year for military purposes.

A strong effort will be made next winter to have the amount largely increased, and this move will be backed by the Governor and all those who have the interests of the Virginia military at heart.

YOUNG ROCKEFELLER'S HEALTH IS NOW BROKEN

Son of Millionaire is Forced to
Leave Sunday School
Class.

NEW YORK, Oct. 2.—Disappointment was great among the members of John D. Rockefeller, Jr.'s Bible class when they gathered yesterday afternoon for the first meeting of the season and were told that their young leader was unable to be with them for the reunion. This feeling became deeper when the Rev. W. S. Richardson, the assistant leader of the class, said at the end of the services that he doubted if the oil millionaire's son would ever lead the class again. He would not say that Mr. Rockefeller, Jr., was in any immediate danger from his ill health, as that was, he said, a question he could not discuss.

Although his effort was not to show his feeling, it was apparent that Mr. Richardson was deeply moved when the question of his young leader's health was discussed. After he had several times changed the subject he was asked to say one way or another whether the leader and founder of the class would return this winter, and he replied, "I cannot answer."

It was not until Mr. Richardson, at the end of the first part of the service, said to the class members that he wished to give them a few words of greeting from their young leader that they realized that they were not to see him.

Mr. Richardson then told them of being with Mr. Rockefeller, Jr., on Saturday afternoon in his father's home in the Pleasantville. He said in a nervous

voice that he had found the young man looking as well as he had expected. He went on to say that he had talked over the affairs of the class for the coming year, and that Mr. Rockefeller had assured him that, although he might not be able to be with the class through the winter months, he wanted to assure the members that he would take the live interest in it and in the work, and that any member could call on him for advice through the medium of the executive committee.

"He wishes to tell you," continued Mr. Richardson, "that he is improving in health, although he is unable to send you any definite word as to when he will return."

CHICAGO, ILL., October 2.—Attempts on the part of the government attorneys to introduce portions of the testimony of the late Robert C. M.
